KINDERGARTEN "GOHLISER HÖFE"

with nature science profile

OUR PROFILE →

- The "Gohliser Höfe" kindergarten has room for 90 children from the age of one year until school entry.
- Due to the natural science-oriented profile this kindergarten creates a stimulating environment that invites them to experiment, research and discover. In this way, the children can develop their creativity and pursue their natural exploratory urge.
- The proximity to the park also enables the children to discover and explore nature and observe changes. A conscious approach to nature and its resources should also be important.

⊕ EXPECTATIONS OF YOU:

- Willingness to learn about the concept behind the facility and the variety of educational methods used
- Enjoyment, openness and fun in working with children
- Curiosity and interest in always learning new things
- Getting to know your own abilities and limitations
- Contributing your own ideas, interests and abilities

Wilhelm-Sammet-Straße 33-39
04157 Leipzig, Germany

✓ WHAT YOU DO WITH US:

- Support in helping to shape and implement educational work
- Collaboration in planning and carrying out open group activities in the cultural, creative, scientific and sporting fields, depending on your interests and abilities
- Individual support of kids in the area of games and learning
- Participation in parent events (parent evenings, parent café, etc.)
- Creation of work and play materials
- Helping to organise celebrations
- Domestic tasks: setting and clearing tables together with the children
- Sharing responsibility for cleanliness and tidiness in the facility and in the outdoor play area
- Participation in staff meetings
