KINDERGARTEN "KINDERGÄRTNEREI"

concept: healthy eating,
education for sustainable
development

OUR PROFILE →

- In order to live up to the name of our kindergarten, high beds have been laid out in many parts of the garden, where the children can grow vegetables, fruit and flowers together with the educational staff, which they can also harvest themselves during the year.
- The garden offers the children the opportunity to experience the seasons with all their changes throughout the year. The rich tree population offers protection from sun and rain.
- We have a library, a children's kitchen, a wood workshop and a playground.
- The kindergarten is open for children from one year old until they start school.

⊕ EXPECTATIONS OF YOU:

- Willingness to learn about the concept behind the facility and the variety of educational methods used
- Enjoyment, openness and fun in working with children
- Curiosity and interest in always learning new things
- Getting to know your own abilities and limitations
- Responsibility and reliability
- Contributing your own ideas, interests and abilities
